PENETRATION STRATEGY

1 Micro merchant

2 No Dongles, No card readers! No Hardware to maintain!

3 Superior to existing mPOS solutions

4 Micro becomes merchants

5 Programmed just like a terminal with a TPN!

Dejavoo values its special relationship with EPI and is committed to delivering a unique POS experience, based on its needs.

We look forward to growing together and maximizing our technological opportunities in the future.

Thank you for listening.
