Dejavoo
an IPOS systems company

# It's *more* than a transaction.

It's your ticket to success.

// Presented by Chris Clarke

IMPACT 25

# Our DNA & Commitment

For over **30 years**, we've been dedicated to the payments industry. A trusted dependable partner to ISO's and ISV's — delivering forward-looking technology and unmatched support.  Dejavoo now has 300+ exployees as we enter our 20th year!

**What defines us:**

🛠️ **In-House Development** – Innovation built from the ground up

🔧 **Service Center** – Fast, reliable merchant support

🔑 **RKL Capability** – Secure remote key loading

🔐 **State-of-the-Art Security** – PCI, Now P2PE Certified!

🤖 **AI Centre of Excellence** – Next-gen tools for merchants & ISOs

# Our Promise

✅ Always a partner – never a competitor

🚫 Not a processor, not an ISO

💡 100% focused on your success

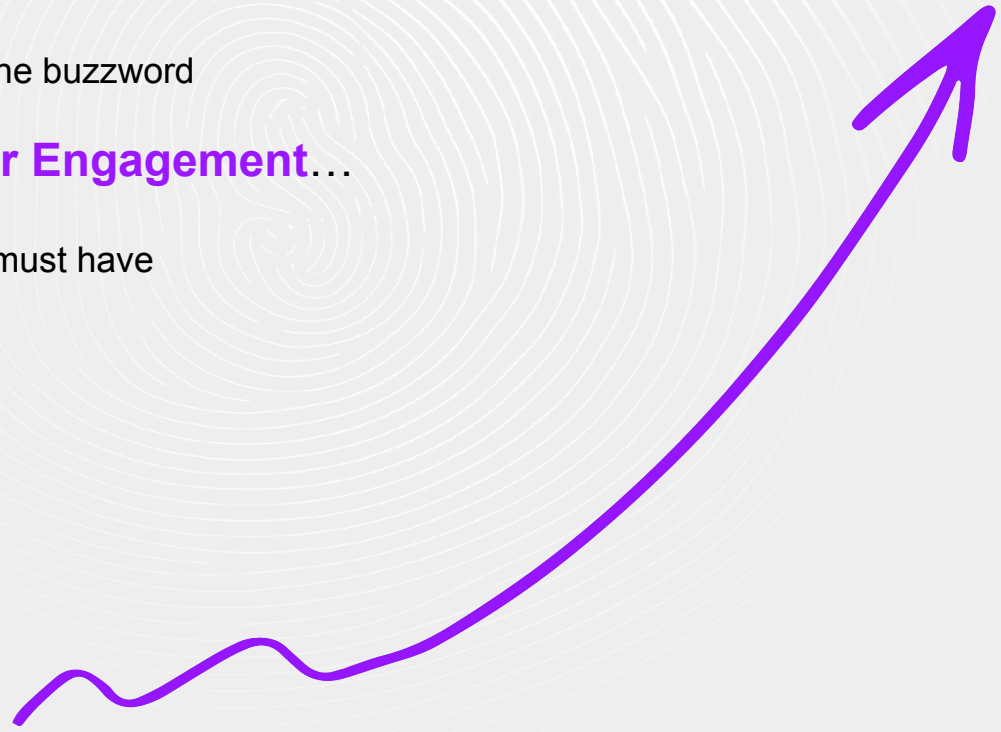
# Customer needs are evolving

They need more than **Payment terminal**

**Omni Channel** is the buzzword

They need **Customer Engagement**…

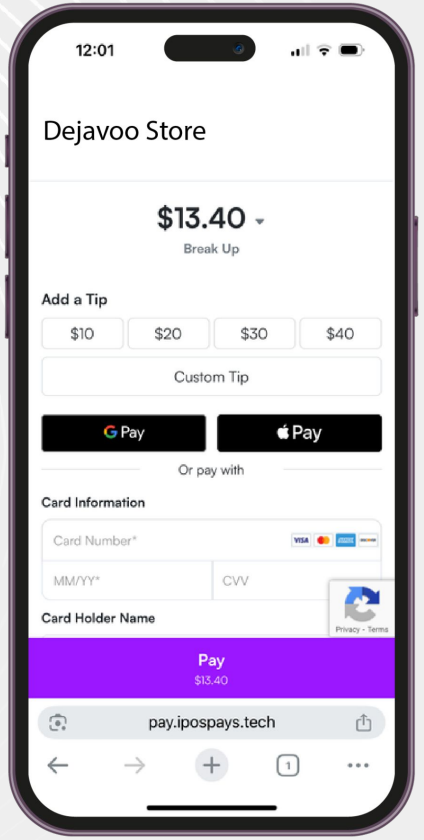
**Integrations** are a must have



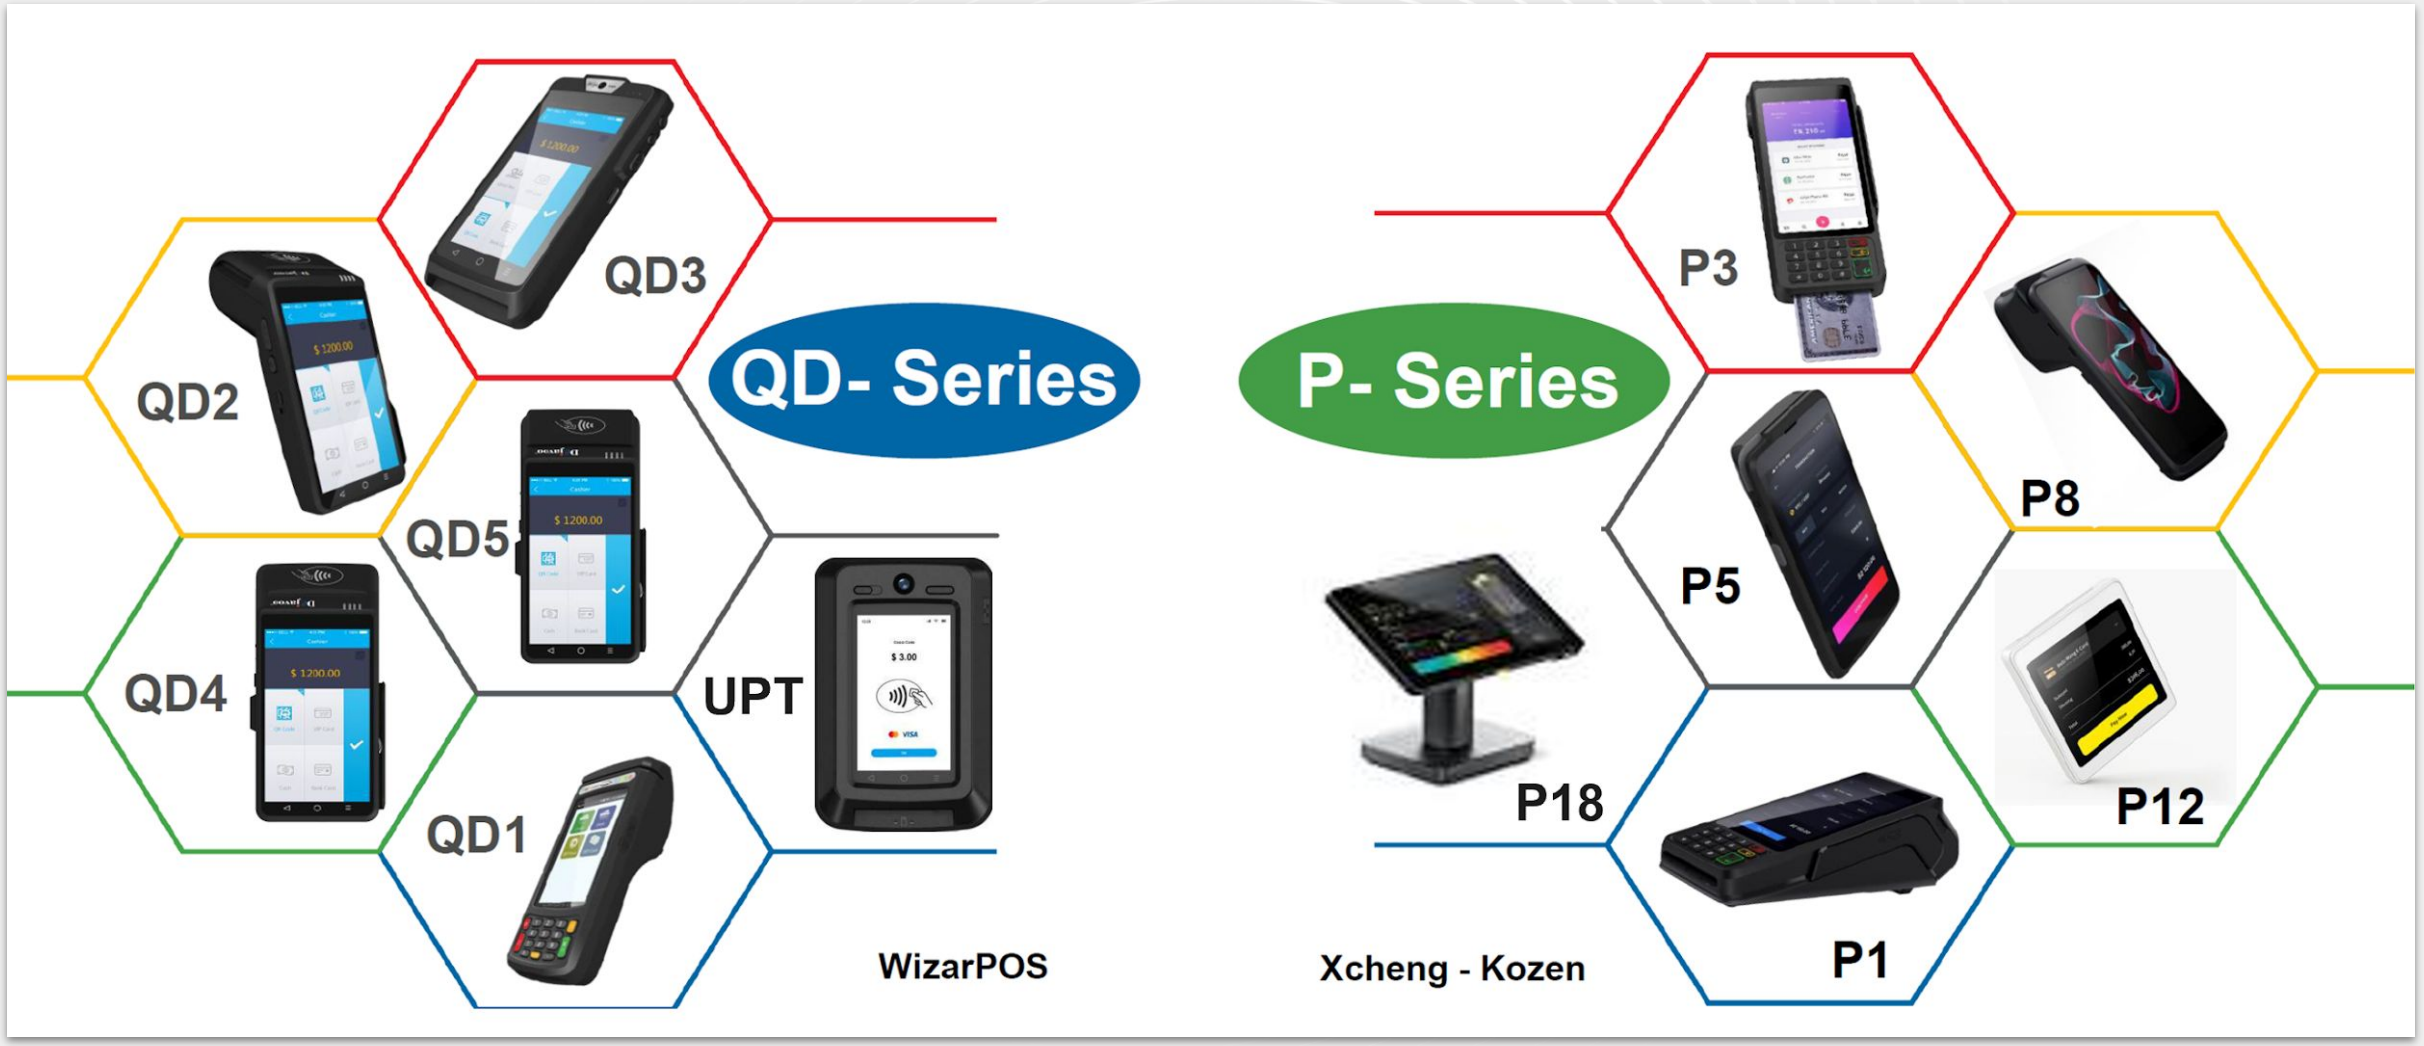
# Omni-Channel Experience

Deliver a seamless shopping journey across in-store, online, and mobile touchpoints.

- Ecommerce Solutions **- Hosted Payment Page, Freedom to Design, WooCommerce Plugin**
- Tap to Pay on iPhone & Android **- Mobile Payment APIs & SDKs**
- Cloud POS **- Virtual Terminal, Itemized Inventory, Invoicing, Recurring Payments, PIN Pad Integration for Customer Present Scenarios, Tokenization**



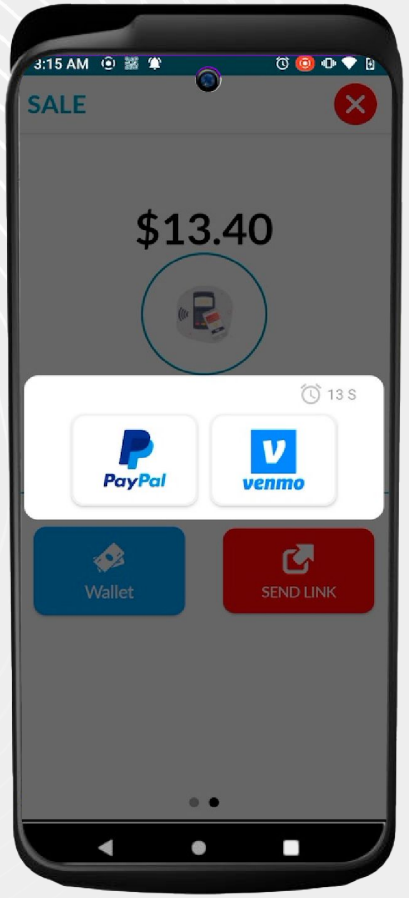
# Multiple Android HW Vendors



# Payments without limits

Enable customers to pay their way — with traditional and alternative payment options.

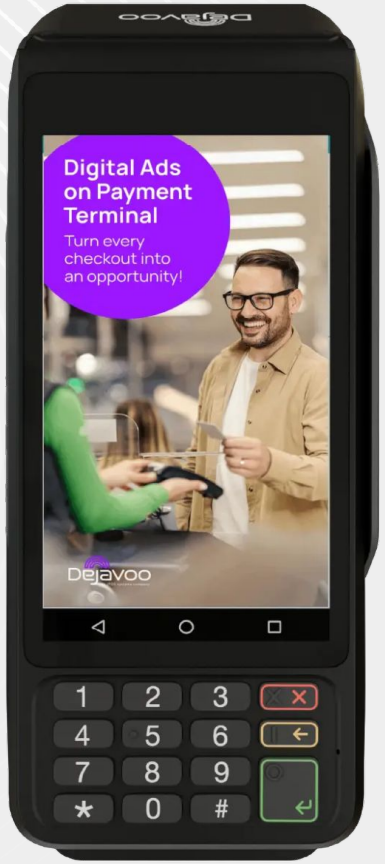
- PayPal, PayPal PayLater, Venmo **(via Pockyt and Beadpay)**
- Crypto **(Velocity, Beadpay)**
- ACH **(Paya, Vericheck)**
- Gift **(Valuetech, Factor4, STS Host, E Gift, E Card)**
- Cash



# Turn payments into conversations

Go beyond transactions by engaging customers directly at the point of sale.

- Digital Ads for consumer engagement through terminals
- Embedded loyalty solution **(Extra 360, Enroll & Pay)**
- Surveys after payments
- Show a QR code to drive online reviews **(Google, Yelp, etc.)**
- Maintain a customer database and run targeted promotions



# Secure every transaction

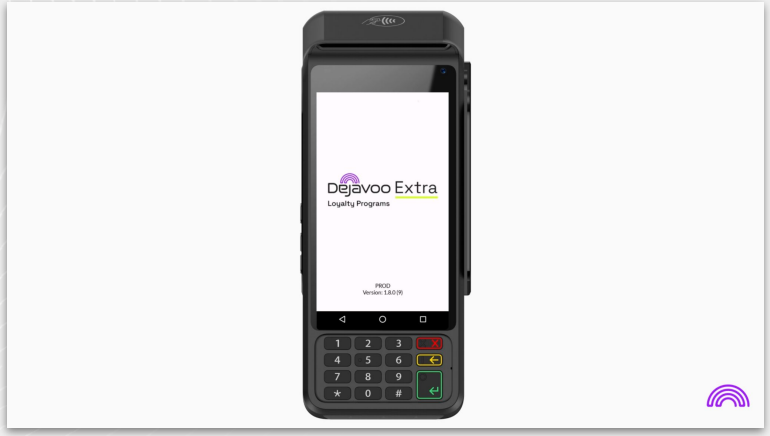
Proactively prevent fraud and protect every payment with intelligent tools.

- **iPOS S.A.F.E.** – Intelligent Risk Engine with real-time monitoring
- Stops suspicious activity before authorization
- Pre-settable parameters for merchant-specific fraud control
- **3D Secure v2** (via Cardinal Commerce) – Frictionless checkout, mobile-ready, and enhanced authentication for eCommerce. Fraud Chargeback prevention, interchange benefits.
- Protects merchants, cardholders, and partners from fraud
- Anti-phishing safeguards with periodic penetration & vulnerability audits

# Endless Integration Possibilities

With iPOSpays, integration possibilities for every case . Our powerful APIs and SDKs make it easy to connect with existing systems — and enable new ones.

- Dealer Management Services
- Accounting Software Integration **(QuickBooks, BillerGenie)**
- Loyalty Software **(Extra 360, Enroll & Pay)**
- ERP Integrations for Billing Software
- Age Verification Systems **(EVS)**
- Other merchant-required integrations are also possible.



# Android QD Line

- **Cygma coming soon**

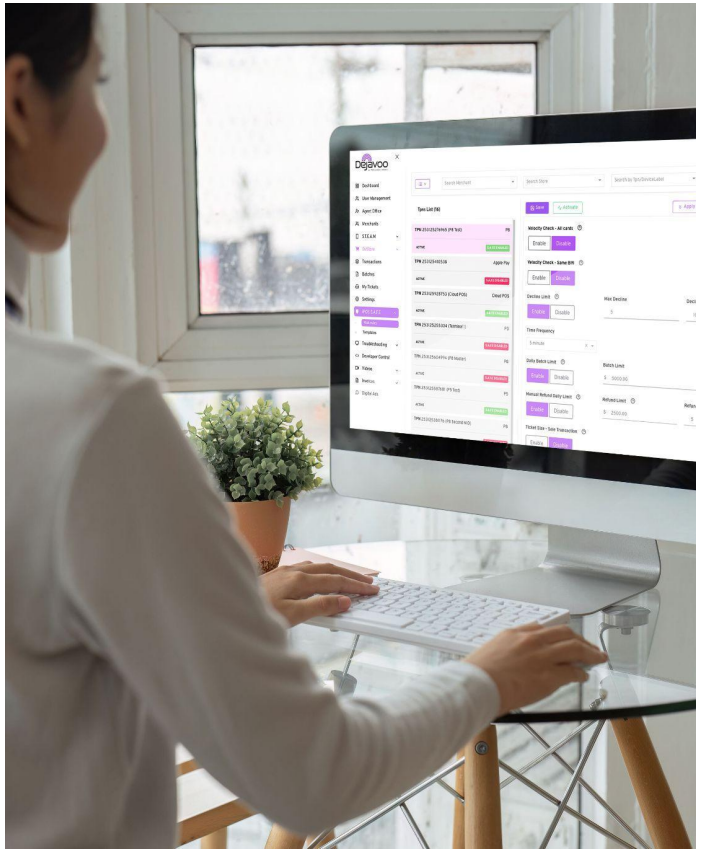
// Omni-commerce gateway

IMPACT 25

# **iPOSpays Gateway Platform** | Overview



- Fast, secure, and industry-leading technology for B2B and B2C industries: Dual MID Processing, Multi Merchant, Digital Ads, Offline Mode, DejavooExtra Integrated Loyalty, ACH, ID Verification
- Cloud POS/VT, with card vault, (we can import),card and ACH recurring payments
- Seamless QuickBooks Online integration with no manual entry
- Certified by FISRV Omaha, Nashville/North, TSYS, WorldPay, and Elavon
- Dependable with positive feedback; multi-language support and extensive support tools (remote view, heartbeat, audit trail, call me, and training videos)
- Robust security: iPOS S.A.F.E, MFA, 3DS, fraud protection, P2PE and refund monitoring
- White label options, Merchant Invoicing, Command & Communication Center
- BlinkSearch: Search thousands of transactions in a blink
- Offline Mode now available (Store and Forward)

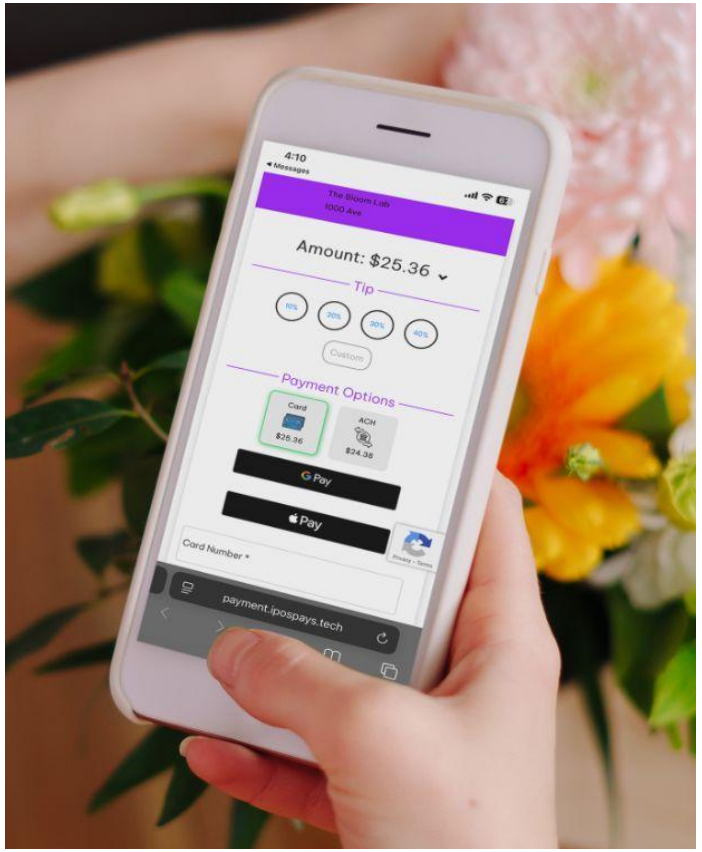
# **iPOSpays Gateway Solution** | For restaurants

- Merchants can control transactions with tip adjustments after batches are closed. “I batched out and forgot to add my tips!”
- Tip Adjust by Store. Settlement by Store. Tip and Settle all devices in store from any device.
- Simplify accounting with online dashboards, transaction views, detailed reporting, and specific time-period tip reports using Server IDs
- Split payments (multi tender types)
- Eliminate manual errors with automatic transaction entry into QuickBooks Online
- Robust reporting with a comprehensive dashboard

# **iPOSpays Gateway Solution** | For retail

- Dejavoo champions any kind of fee based program configurations.
- Cloud POS / Virtual Terminal for sending payment links, recurring billing, and ACH payments. Send secure payment links via SMS or email and hosted payment pages (online ordering)
- WooCommerce integration
- eCommerce/MOTO solutions with a simplified hosted payment pages
- Generic Hosted Payment Page (GHPP) with an easy to use custom page design tool.
- Performance dashboard with robust KPIs, real time reporting portal, and risk management
- Built-in integrations with QuickBooks Online, Freedom to Design.js, Register Lite
- Supports alternative payments such as Crypto, PayPal, Venmo, and ACH

# **Apple Pay and Google Pay:** Enterprise Integrations



- Accepting Apple Pay and Google Pay through ecommerce digital wallets
- Before the integrations, only **56%** of links were actually paid
- By adding Google Pay, payment increased to **63%**
- Then by adding Apple Pay, payment increased to **74%**
- As of May 2025, 80% of our merchants have Digital Wallets enabled and that number is growing
- Why we offer Apple Pay and Google Pay: safe and secure payments personal data protected, purchases stay private.

Pay + G Pay
